spoke to my lawyer about user uploaded content. ours and pornhub kind. he's not included to agree to the pornhub model. zzzzz.... so fucking annoying.

i think there's 2 ways to play this game

legitimately

and not legitimately

the latter involved being in cyprus etc

what really annoys me is that we're setup in nevis

to protect ourselves from this shut

and im still paying lawyers

i could just drop the case... and let eric try to collect from nevis

but lawyer says they'll run up 100s of thousands in fees... and if they ever broke thru it'd be deadly

11:27 AM

wait youre talking about Eric here or user uploads
